

# World Bank Group Strategy for Fragility, Conflict and Violence

**Online feedback was received through the below questionnaire.**

The World Bank Group is **developing its first formal strategy** for Fragility, Conflict and Violence (FCV). The objective of the strategy is to address the drivers of FCV in affected countries and their impact on vulnerable populations, with the ultimate goal of contributing to peace and prosperity.

To ensure that the strategy benefits from a wide range of inputs, we are seeking your views on the World Bank Group's proposed approach outlined in the **FCV Strategy Concept Note**. The strategy is being developed jointly by the International Finance Corporation (IFC), the Multilateral Investment Guarantee Agency (MIGA) and the World Bank.

Your views and the views of other stakeholders around the world will help to ensure the strategy has the greatest possible impact for vulnerable communities affected by fragility, conflict and violence.

***Prior to submitting your comments, please read the FCV Strategy Concept Note, laying out the concept on which the future strategy will be based.***

**Please answer the questions below:**

**1. One objective of this questionnaire is to understand how effective past World Bank Group engagement in fragility, conflict and violence contexts has been. What are your views? Do you have any examples you can share?**

**2. What is your view of the World Bank Group's proposed approach to its future work in fragility, conflict and violence contexts, outlined in the Concept Note? [If possible, please include page references.]**

**3. What is your view of the Strategic Areas of Engagement identified on page 7 of the Concept Note? Are there additional areas you think should be considered?**

**4. What is your view of the 4Ps outlined on page 10-12 of the Concept Note to enhance the effectiveness of the World Bank Group's operations in fragile and conflict-affected settings? Are there any additional areas you think should be considered?**

5. Do you have any views or recommendations as to how the World Bank Group can best position itself as an integral part of the international community's efforts to promote peace, stability, and prosperity in fragile and conflict-affected settings?

6. An objective of this questionnaire is to explore potential new areas of World Bank Group support in fragile and conflict-affected settings. Do you have examples of innovative approaches, policies and programs, whether in the public or private sector?

7. How can the World Bank Group be more effective in helping leverage the private sector to address challenges in fragile and conflict-affected settings?

8. Do you have any suggestions or recommendations for ways to best measure the impact of development projects and programs in situations of fragility, conflict and violence?

9. Do you have any additional comments or suggestions?
