Setting Standards for Sustainable Development

Update and Review of the World Bank’s Safeguard Policies
Why the Review?
World Bank Group Commitment

“The World Bank Group is committed to supporting countries in reducing poverty and building shared prosperity in a sustainable manner.”*

→ To end poverty and promote shared prosperity all aspects of social and environmental sustainability must be taken into consideration

→ Protecting the environment and the world’s poorest and most vulnerable people in our projects are central to this vision

* World Bank Group Strategy, October 2013, p. 5
A Changing World

• Issues our clients face have changed dramatically over the last 20 years

• Many clients’ as well as the World Bank’s ability to manage these issues have significantly improved

• World Bank modernization effort

• 2010 IEG evaluation *Safeguards and Sustainability Policies in a Changing World: An Independent Evaluation of World Bank Group Experience*

• 2012/2013 multi-stakeholder consultation underlined need for change
Consultations
Phase 1: A Look Back to 2012/2013

- Views from stakeholders from over 40 countries (civil society, government, private sector, academia, development partners etc.)
- Written submissions from civil society organizations, governments, academia etc.
- Expert focus groups on 7 emerging areas
  - Land Tenure and Natural Resources
  - Free, Prior and Informed Consent of Indigenous Peoples
  - Labor and Occupational Health and Safety
  - Climate Change
  - Human Rights
  - Disability
  - Gender
- Dedicated Indigenous Peoples Dialogue
- Dialogue with project-affected communities
Phase 1: Main Issues Raised in Consultations

Draft framework attempts to address these issues. We look forward to hearing your views in this consultation phase.
Phase 2: Consultation Process

• 37 countries planned (TBC), incl. 25 borrowing countries
  • Consultation phase extended
    • Indicative country consultation schedule online, most countries confirmed
  • Dedicated Indigenous Peoples consultations
  • Topical expert consultations: labor, biodiversity, vulnerable groups
  • Synergies with large international meetings (e.g., World Conference on Indigenous Peoples, Civicus International Civil Society Week)
  • Bilateral meetings on request (email safeguardconsult@worldbank.org)
  • Possibility of online public consultations in January
  • Consultations and workshops with development partners (e.g., other MDBs) and international organizations (e.g., ILO)

• Meeting summaries and participant lists to be published on website
• Additional feedback channels (forum, comments on individual Standards) through website
Proposed Framework
Our Goal

**Communities** to receive **broader and enhanced protection** for their livelihoods and environment.

**Implementers’** projects to have **better development results** through outcomes-focused approach, improved design and improved implementation measures.

For **the Bank, stronger accountability** and new rules that will add more social and environmental protection.
The Proposed Framework

- Builds on existing safeguards and preserves Bank core values
- Presents a modernized, risk-based, outcomes-focused approach to protecting the environment and people
- Puts strong emphasis on risk management and achieving sustainable development outcomes over the life of the project
- Broadens social assessment and management of environmental and social risks
- Provides greater clarity of the roles and responsibilities of the World Bank and Borrower
- Increases harmonization with development partners and recognized good international practices
- Renews and strengthens partnership with borrowers
Bank and Borrower Roles

The Bank’s role:

Detailed in the proposed policy.
Bank responsible for:

• Reviewing assessments and helping Borrower to develop measures and actions required for compliance with standards
• Strengthening/promoting use of Borrower’s environmental and social institutions and laws
• Agreeing with Borrower on the measures/actions in the ESCP
• Supporting rigorous implementation of commitment plan

Borrower’s Role:

Specified in the 10 Environmental and Social Standards.

• As now, borrowing country is responsible for assessing, managing and monitoring environmental and social risks and impacts in Bank-financed projects
• Based on E&S assessment, Bank and borrower would agree on specific Commitment Plan to mitigate risks (with clear timelines)

* Listed in random order, not exhaustive of all issues discussed during consultations
Complex issues
Non-Discrimination

Proposal

• Establishes non-discrimination as core principle in accordance with commitment to protecting the poor and other vulnerable groups from adverse impacts caused by World Bank-financed projects

• Provides for stronger assessment of discrimination toward individuals or groups

• Addresses discrimination

→ Non-discrimination principle addresses gender, physical or mental disability, sexual orientation, and gender identity, among other issues
Labor and Working Conditions

Proposal

• Requires Borrowers to explicitly address key labor-related issues

• Prohibits child and forced labor

• Builds on national requirements

• Incorporates principle of non-discrimination/equal opportunity in employment in Bank projects
  • Employment of project workers based on the principle of equal opportunity and fair treatment
Indigenous Peoples

Proposal

• Moves from Free, Prior, Informed, Consultation to Free, Prior and Informed Consent in key circumstances

• Addresses issues requested by Indigenous Peoples stakeholders:
  • Voluntary Isolation
  • Pastoralism
  • Risk of internal conflict

• Introduces alternative approach to help avoid internal conflict:
  • Exception rather than the rule, context specific, open and accountable process for consideration, approval of alternative approach by World Bank Board, Protects IPs using other ESSs
Land and Involuntary Resettlement

Proposal

• Maintains strength of current policy; land issues addressed in several of the proposed Standards

• Acknowledges potential adverse impacts through project-related land acquisition and restrictions on land use

• Makes all types of potential conflicts concerning land access an explicit focus of environmental and social assessment

• Builds on existing protections and clarify protections related to land and involuntary resettlement

• Commits to supporting land rights of Indigenous Peoples

• Avoids or minimizes involuntary resettlement; no forced eviction; and mitigates any adverse impacts through compensation and assistance
Biodiversity

Proposal

• Integrates existing safeguards on forests and natural habitats

• Strengthens existing safeguards through introducing more specific and stringent requirements for biodiversity conservation

• Introduces more clarity and more stringent requirements for how risks and adverse impacts on natural habitats must be mitigated

• Ensures that Bank funds will not be used to finance or support projects that would involve a significant conversion or degradation of critical habitats

• Allows offsets only in exceptional circumstances and as last resort
Human Rights

Proposal

• Makes clear that World Bank operations support human rights by enlarging the scope of the proposed standards through required assessment of a range of issues that directly relate to human rights concerns (such as non-discrimination, gender, disability, and children)
Proposal

• Always requires **rigorous upfront assessment** to determine the scope and significance of environmental and social impacts

• Recognizes that for some large and complicated projects, the assessment of certain risks can be carried out **over time** (but well **in advance**) of any activities that could have adverse impacts

• Requires Bank and Borrower to agree on Borrower environmental and social requirements in legally binding, time-bound **commitment plan**

• Requires that commitment plan is **fully developed and consulted on** prior to any project initiation with adverse impact

• Allows better risk management for **projects without physical footprint**

---

**Adapting Risk Management**

- **Assessing risks**
- **In-depth analysis & fine-tuning of issues**
- **Planning risk management**
