RENEWING THE WORLD BANK GROUP
VISION AND MISSION
AN OVERVIEW OF WBG EVOLUTION
A RAPIDLY CHANGING LANDSCAPE

The world is tremendously off track to achieve the Sustainable Development Goals (SDGs)

Over the last few years, we have experienced:

- Multiple overlapping crises
- Increase in poverty
- Declines in growth
- Reversals in hard-won human development gains
- Threats to prosperity from global challenges

THE WORLD BANK GROUP HAS BEEN AT THE FOREFRONT OF THE GLOBAL CRISIS RESPONSE

Total WBG financing for clients amounts to $272 BILLION since the start of the COVID-19 pandemic (Fiscal Year 2020-2022)
WBG Governors requested “... a systematic dialogue to enhance our shared vision for the WBG, including strategic priorities, strengths and gaps, incentives, operational approach, and financial capacity to bolster and scale the response to global challenges and move toward achieving the Twin Goals and the SDGs in all client countries.”

The global community—including many of you—have called on MDBs to step up support for the world’s polycrises; lend substantially more to governments and do more to mobilize private financing; and do more to fight climate change mitigation and adaptation.
